## TERMS OF REFERENCE

### **Supply and Delivery of Half Magnetic White Board and Half Cork Board for the Equipping and Accreditation as Primary Care Facility of the CSFP SUPER HEALTH CENTER / RURAL HEALTH UNIT VI in the City of San Fernando, Pampanga**

#### **I.BACKGROUND**

A paradigm shift is needed for the Philippine Health Sector wherein health reforms are critical especially during the pandemic situation. According to the DOH Philippine Health Facility Development Plan for 2022 to 2040, capital formation on health should be considered as assets with enormous economic returns. Without sacrificing the goal of equity and universal access, health care provider networks of local governments should consider health infrastructure as investments that have income generating potential. The plan envisions to create a modern, resilient, and sustainable health care system.

The PHFDP 2020-2040 outlines our strategic direction for health facilities in the country to achieve strong primary care and an integrated health system. The PHFDP will lead us to establish immediate and sustainable gains in primary care, hospital access, quality care, and other key health outcomes.

Data further showed that, the Philippines has around 3,900 primary care facilities (PCF), of which 2,593 are Rural Health Units/ Health Centers (RHU/HCs). Only 50% of Filipinos have access to an RHU/HC within 30 minutes of travel time. The country needs an additional 2,400 RHU/HCs by 2025.
