Project Title : **Supply and Delivery of Five (5) units of motorcycle to be used for the Project Strengthening Effective and Efficient Disaster Response to Mitigate Effects of Calamities in the City of San Fernando, Pampanga**

Project Location: **City of San Fernando, Pampanga**

Background: The Construction, Maintenance and Building Safety Division (CMBSD) of the City Engineer's Office is responsible for implementation, administration of construction, repair and maintenance of these infrastructure projects such as roads, bridge, drainage system, public building and other structures/facilities of public usage within the city. These maintenance work includes, plumbing works, electrical works, carpentry works, masonry works, painting works, pest control, vegetation control, clearing and desilting of drainage system and major waterways and tributaries, cutting and trimming of trees, repairing of canal/canal covers, demolition works, other engineering services.

During disaster, it would be quite challenging for the office to perform this mandate as a response to the impact of the such disaster. Limited resources, time constraints, and logistical challenges are a few issues that needs to be addressed by the office to effectively and efficiently work under extreme conditions. As such, providing means to quickly provide Engineering Intervention during disaster such as improving communications and transportation. To do this., we are proposing the provision of motorcycle vehicles to key personnel of the Office.

These vehicles will assist our supervisors, foreman and other key personnel who needs to transfer from one site to another for effective and timely delivery of the above-mentioned services during calamities. Further, as the Office does not only prioritize disaster response but also disaster preparedness through mitigation projects such as Flood Control and other Engineering Interventions. These vehicles will not only strengthening response but also the implementation of Flood Mitigation project of the Office

Thus, this proposal requires the purchase of motor vehicle for 5 personnel of the CMBSD.

Objective/s:

- To easily and timely respond to individuals and families affected by natural disasters and provide Engineering Interventions and support necessary to control the possible damaged caused by these disasters.
